

*August 11, 2009*

*Dr. Proodian recently spoke to approximately 30 employees at Maser Consulting on the topic of Muscle Stress. We found him to be engaging, educated and inspiring. Our employees were so impressed with him one even said, "That was one of the best presentations I have ever been too. Thank you very much for having this. I look forward to future presentations from Dr. Proodian."*

*Maser Consulting has recently begun a Workplace Wellness Program in an effort to provide our employees with the tools and resources to living a healthy lifestyle. Dr. Proodian's knowledge and clear passion for this topic is a resource we look forward to tapping into again. He was truly an inspiration!*
